

Introduction

“Every child deserves the best possible start in life and support to fulfil their potential. A child's experience in the early years has a major impact on their future life chances. A secure, safe and happy childhood is important in it's own right and it provides the foundation for children to make the most of their abilities and talents as they grow up.”

- “Early Years Foundation Stage Profile”

Department for Children, Schools and Families 2012

Principles

The EYFS is based upon four principles:

• **A unique child.**

We recognise that every child is a competent learner who can be resilient, capable, confident and self-assured. We recognise that children develop in individual ways and at varying rates. Children's attitudes and dispositions to learning are influenced by feedback from others; we use praise and encouragement as well as celebration and rewards to encourage and develop a positive attitude to learning.

• **Positive relationships.**

We recognise that children learn to be strong and independent from secure relationships and aim to develop caring, respectful and professional relationships with the children and their families.

• **Enabling environments.**

We recognise that the environment plays a key role in supporting and extending the children's development. Through observations we assess the children's interests, stages of development and learning needs before planning challenging and achievable activities and experiences to extend their learning.

• **Learning and development.**

The Foundation Unit is organised to allow children to explore and learn securely and safely. There are areas where the children can be active, be quiet and rest. The unit is set up in learning areas where children are able to find and locate equipment and resources independently.

Early childhood is the foundation on which children build the rest of their lives. At St Albert's Catholic Primary School we greatly value the importance that the EYFS plays in laying secure foundations for future learning and development. However, we also believe that early childhood is valid in itself as part of life. It is important to view the EYFS as preparation for life and not simply preparation for the next stage of education.

The EYFS for children is from birth to five years of age. All children begin school with a wide variety of experiences and learning and it is the privilege of the adults working in the foundation stage to accept the task of building upon that prior learning experience. This is done through an holistic approach to learning ensuring that parents and guardians, support staff and the Foundation Stage team work effectively together to support the learning and development of the children in their charge.

Aims

It is every child's right to grow up safe, healthy, enjoying and achieving, making a positive contribution and with economic well being. The overarching aim of the EYFS is to help young children achieve these five outcomes.

We will provide a broad and balanced curriculum that will enable each child to develop personally, socially, emotionally, spiritually, physically, creatively and intellectually to their

full potential. Each child is valued as an individual and teaching and learning is based on the understanding that children develop at different rates.

At St Albert's, we aim to:

- Provide a safe, challenging, stimulating, caring and sharing environment which is sensitive to the needs of the child including children with additional needs.
- Provide a broad, balanced, relevant and creative curriculum that will set in place firm foundations for further learning and development in Key Stage 1 and beyond.
- Use and value what each child can do, assessing their individual needs and helping each child to progress.
- Enable choice and decision making, fostering independence and self-confidence.
- Work in partnership with parents and guardians and value their contributions ensuring that all children, irrespective of ethnicity, culture, religion, home language, family background, learning difficulties, disabilities, gender or ability.
- Provide opportunities whereby children experience a challenging and enjoyable programme of learning and development.
- Provide experiences for all children, whatever their needs, which are inclusive rather than parallel.

The Early Years Framework

The Early Years Framework in its current form became statutory in September 2012. At St Albert's we adhere to this new framework. All children in the EYFS have access to a broad, rich topic based curriculum both indoors and outdoors. The seven areas of learning and experience, ages and stages, and the Early Learning Goals now provide a National Framework for individual schools and other pre-five settings in planning, teaching and assessing the early year's framework. They also provide an essential link between the pre statutory framework and the Key Stage One programmes of study. We have adopted these areas of learning and experience and the national ages and stages, as the basis for our planning as they provide a framework which enables us to achieve our aims for under five provision.

The Seven Areas of Learning

The seven areas of learning covered by the framework are:

PRIME AREA: Personal, Social and Emotional Development (PSED)

This area has three sub sections. These are Making Relationships, Self-confidence and Self-awareness and Managing Feelings and Behaviour. The outcomes focus on children learning how to work, play, co-operate with others and function in a group beyond the family. They cover important aspects of personal, social, moral and spiritual development including the development of personal values and an understanding of self and others.

PRIME AREA: Communication and Language (C and L)

This is broken down into three sub sections. These cover Listening and Attention, Understanding and Speaking. These outcomes cover important aspects of language development and provide the foundations for literacy. The Early Years Policy places a strong emphasis on children's developing competence in speaking and listening and Understanding. Other areas of learning also make a vital contribution to the successful development of literacy.

PRIME AREA: Physical Development (PD)

This covers both fine and gross motor development and keeping healthy. Physical development is implicit in all areas of the EYFS framework. Teaching concentrates on

children's developing physical control, mobility, awareness of space and manipulative skills in indoor and outdoor environments. Positive attitudes are encouraged towards a healthy and active way of life.

SPECIFIC AREA: Mathematics (M)

This is broken down into two sub sections. These are Number and Shape, Space and Measures. These outcomes cover important aspects of mathematical understanding and provide the foundation for Mathematics. They focus on achievement through practical activities and are using and understanding language in the development of simple mathematical ideas.

SPECIFIC AREA: Literacy (L)

This area of learning has two sub sections of Reading and Writing. The objectives ensure success in early reading and writing skills. Phonics plays a big part in this area and the ability to blend for reading and segment for spelling are skills that are promoted daily in the Foundation Stage at St Albert's.

SPECIFIC AREA: Understanding the World (U the W)

This area of learning covers geography, science, DT, history, ICT and RE. This is a major area of learning and enquiry focusing children's developing knowledge and understanding of their environment, other people and features of the natural and made world. It provides a foundation for historical, geographical, scientific and technology.

SPECIFIC AREA: Expressive Arts and Design (CD)

This area of learning covers art, music and drama. This area of the EYFS framework focuses on the development of children's imagination and their ability to communicate and to express ideas and feelings in creative ways.

Characteristics of effective learning

The characteristics of effective learning describe factors which play a central role in a child's learning and in becoming an effective learner. They are vital elements of support for the transition process from EYFS to Year 1. The characteristics of learning run through and underpin all seven areas of learning and development, representing processes rather than outcomes. Information describing the child's characteristics of effective learning will provide Year 1 teachers with vital background and context when considering the child's next stage of development and future learning needs.

Playing and exploring – engagement

- Finding out and exploring
- Playing with what they know
- Being willing to 'have a go'

Active learning – motivation

- Being involved and concentrating
- Keeping trying
- Enjoying achieving what they set out to do

Creating and thinking critically – thinking

- Having their own ideas

- Making links

- Choosing ways to do things

Observation, Assessment and Planning

Good planning is the key to making children's learning effective, exciting, varied and progressive. Effective learning builds on and extends what children know and can already do. Our planning shows how the principles of the EYFS are put into practice and is always informed by observations we have made of the children, in order to understand and consider their current interests, development and learning needs. All staff who work in the Foundation Stage are involved in this process.

The planning within the EYFS is based around the children's interests. These plans are used by the EYFS team as a guide for weekly planning. However, we may alter these in response to the needs of the children.

We make regular assessments of children's learning and we use this information to ensure that future planning reflects identified needs. Assessment in the EYFS takes the form of long, short and recorded observations and this involves the teacher and other adults as appropriate. These observations are recorded and used to inform the Senior Leadership Team. The parents and guardians are given the opportunity to meet with the Foundation Stage Team each term and, at the end of the third term, we provide a written summary in relation to the children's early learning goals to parents and guardians.

Learning through Play

At St Albert's we do not make a distinction between work and play. Children learn through planned play activities and staff will decide when child-initiated or adult-led play activities would provide the most effective learning opportunities.

The Induction Process

During the Summer Term prior to starting school the following September the following visits are conducted:

- Foundation staff will visit pre-school settings from which September's intake will be taken.
- Where possible, the nursery foundation staff will visit each child in their home environment.
- Each child and their parents and carers will be invited to spend some time at St Albert's in order to familiarise themselves with both the staff and the foundation unit environment.

When children join the school in September the following procedures will apply in order that they can gradually adjust to their new surroundings:

- During the first week, children will attend for the morning session only.
- During the second week, children will attend for the morning session and lunch only.
- During the third week and thereafter, children will attend for the full school day unless Foundation staff and parents or guardians agree that it is not in the best interests of an individual child.

Home and School Links

We recognise that parents and carers are a child's first and most enduring educators and we aim for the schools and parents and carers to work closely in the Foundation unit. This can have a very positive impact on a child's development but relies on a two-way flow of information and knowledge.

We will develop this working relationship between the school and parents and carers as follows:

- We will outline the school's expectations in a Learning Contract.
- We will hold a parent consultation early in the year to establish how a child is settling into the school environment.
- We will send home a "Magical Me" book designed to enable Foundation staff and parents or guardians to record outstanding achievements.
- We will publish a theme topic leaflet detailing the areas of learning and the overarching theme of the term or half-term.
- We will operate an "open door" policy that will allow parents and carers to discuss concerns and developments in an informal manner. Conversely, if Foundation staff have concerns about the progress of a child, they will immediately approach parents and carers to discuss them.
- We will conduct workshops for parents and carers to enable them to be familiar with the teaching methods used in school to make it easier to emulate them at home.
- We will conduct a further parent consultation late in the term to inform parents and carers formally of a child's results and overall progress.
- There will be opportunities for parents and carers to visit the school on a volunteer basis to assist with the children's learning by assisting with guided reading.
- At the end of term, we will invite parents and guardians to visit the school informally in order to fully appreciate the work that has been produced in that term.

Intimate Care

"Intimate" care is any care which involves washing, touching or carrying out an invasive procedure that most children are able to carry out themselves. However, depending on a child's age and stage of development, they may need some support, for example dressing, wiping their bottom after using the toilet and changing underwear following an accident. In most cases, intimate care is to do with personal hygiene and it is good practise for the school to inform the school nurse of all children requiring intimate care.

Every child has the right to privacy, dignity and a professional approach from all staff when meeting their needs and it is important that staff work in partnership with parents to give the right support to an individual child.

No intimate care is to be given without the express written permission of the parent or guardian of that child and all parents and guardians will be asked to provide that permission when their child joins the Foundation unit at St Albert's.

Inclusion and Equal Opportunities

Children with special educational needs will be supported as appropriate to enable them to access the curriculum fully. This includes children that are more able and those with specific learning difficulties and disabilities. Individual Education Plans identify targets in specific areas of learning for those children who require additional support commensurate with the school's Special Educational Needs Policy. The school's SEN Co-ordinator is responsible for providing additional information and advice to staff and parents and for arranging external intervention and support as necessary.

In line with the school's Equal Opportunities Policy, we will provide all children, regardless of ethnicity, culture, religion, home language, family background, learning difficulties,

disabilities, gender or ability with equal access to all aspects of school life to ensure that every child is valued as an individual. All staff are role models and are aware of the influence they have in promoting positive attitudes and use that influence to challenge stereotypical attitudes.

Safeguarding

The school takes its child protection responsibilities very seriously. Any concerns, which the school has, will be noted and, if deemed necessary, will be reported to the relevant agency. The safety of the child is always of paramount importance. The full Safeguarding Policy is available in school for parents to read if they wish.
