Roblox

What is Roblox?

You can either use Roblox to create games or play games that other users have created. Roblox has a PEGI rating of 7+ BUT as a lot of the content is user generated, which PEGI does not rate, these games may not be suitable for your child to view/play.

What should I be aware of?

Chat Facility - Players can chat to each other on Roblox. You can add parental controls to turn this feature off completely or add restrictions.

Virtual Currency - Players can buy Robux (their virtual currency) to buy in-game upgrades or accessories. If you do not want your child to purchase them, then ensure your card details are not saved.

What should I do?

- Play the game with your child.
- Explore the parental controls within Roblox and set appropriately for your child (for example restrict access to age-appropriate games).
- Show your child how to use the Report Abuse system within Roblox to report inappropriate content and how to block other users.

YouTube

YouTube is intended for users over the age of 13, however the App store rates YouTube as 17+ due to the content that can be found on there.

How can I make YouTube safer?

- **Turn on Restricted mode** as this restricts the availability of mature content. You will need to set up a Google account to do this.
- **Explore YouTube together** and see what they like to watch. Make sure your child understands that they can **talk to you** if they see anything that makes them feel uncomfortable online.
- Ensure your child knows how to **report inappropriate content**.

YouTube Kids

YouTube recommends that **YouTube Kids** is used for children under the age of 13 as it provides a safer environment and offers greater controls (you can select the shows that you would prefer them to watch). Find out how to set up the parental controls here:

<https://support.google.com/youtubekids/answer/6172308?hl=en-GB>

Supervised experience (Beta version)

Managed by you by creating a supervised Google Account. It allows you to choose from three content settings:

- **Explore:** generally suitable for ages 9+.
- **Explore More:** generally suitable for viewers ages 13+.
- **Most of YouTube:** contains almost all YouTube content (except age-restricted content) so it *will* include sensitive topics that may only be appropriate for older teens. <https://www.youtube.com/myfamily/>

Posting videos

You should be over 13 years of age to post videos. Talk to your child about posting videos, do they understand what information they should keep private and what to do if they receive negative comments? YouTube have produced these tips:

Social Media Apps

What age should my child be to use these apps?

Discord
13+

Facebook
13+

Instagram
13+

Snapchat
13+

TikTok
13+

Twitch
13+

Twitter
13+

YouTube
13+

What risks are there of my child using these apps?

Whilst there are benefits to being online, there are risks too regardless of your child's age. Risks include your child viewing inappropriate content, sharing personal information, cyberbullying and grooming.

Reporting functions

If your child is using any of the above apps then make sure you show them how to use the reporting facilities within each app and ensure your child knows that they must tell you or another trusted adult if they see anything upsetting online. Use the apps together and explore the different security and privacy settings.

Further information

Is your child too young to use the above apps but is still asking you if they can join social media? Then you could suggest an alternative option. Internet Matters list several apps that have been created for younger children, they are grouped for ages 6 – 10 and ages 11 – 13:

<https://www.internetmatters.org/resources/social-media-networks-made-for-kids/>

Net Aware provide further information about the most popular apps, games and social media sites:
